Career Objective

Seeking an internship or entry-level position as a MERN Stack Developer to apply my skills in React, Node.js, Express, MongoDB, and Firebase. Currently pursuing a BSc in Software Engineering, I aim to contribute to high-impact projects that prioritize scalable, efficient, and maintainable software solutions while gaining industry experience in a dynamic, growth-oriented environment.

Skills

- **Technical:**
JavaScript, React.js, Node.js, Express.js, MongoDB, Firebase, Git, GitHub, VS Code, API Integration, React Router, Responsive Design, HTML, CSS, Tailwind,
 - **Soft:**
Teamwork, Time Management, Problem Solving, Adaptability
-

Projects

1. Recipe Book

Recipe Book – Full-stack MERN app with Firebase Auth, allowing users to create, edit, and explore recipes with image uploads, filters, and a personal dashboard. Features secure CRUD APIs, responsive UI (Tailwind), and animated interactions (GSAP).

Tech Stack: React.js, Node.js, Express.js, MongoDB, Firebase Auth, Tailwind CSS, React Router
